Allowable Subject Matter

1. Claims 1-3, 4-34 are allowed.

The following is an examiner's statement of reasons for allowance:

The allowability of the independent claims resides, at least in part, in that closest prior art of record Hull et al. (U. S. Patent 5,192,559) does not disclose or suggest, alone or in combination, selectively and separately dispensing a first interface material and a second interface material from a printing head within a given layer, said first interface material and said second interface material being different; each of said first interface material and said second interface material comprising photopolymer materials; and curing said first and second interface materials using radiation, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
